

Abu Dhabi: AMG Scientific Solutions, Abu Dhabi recently supplied and installed Mobilis, France buoys and channel markers for the Department of Transport - Maritime, Abu Dhabi which helped to execute the plan of restricting areas for jet skiing according to the new water safety map published. The bulk of the equipment was D800 conical and cylindrical buoys which were installed at Al Bateen and Khor Al Maqtaa Channel to help secure the areas.

Also, installed were special T1200 Spherical buoys fitted with solar lights from Carmanah, U.S.A. These were installed along the Maqtaa and Al Raha areas.

Jet skis have been banned alongside Al Bateen beach and between the two bridges at Khor Al Maqtaa. Swimming zones have been created in both areas. An area of Al Raha is also off limits to jet skis, though no swimming zone has been created.
